Dear Editor:

Potential land buyers and residents along unimproved roads in Warren Township, however, the township appears to be in a bind. They are planning to buy or build along an unimproved road in the township, but the township appears to be in a bind.

When we surveyed the residents of these two roads 9 out of 14 residents were against the road widening and paving project. Of the other five, several did not express an opinion either way. Not one of the residents on Walnut Drive, our road, wanted the project. When residents called the township office they were told some people were for the project when they were really against it and the road widening project was not needed.

A petition against the road project was signed by the 9 opposing residents, who also happen to own about 75% of the road frontage, and was taken to the Chester township supervisors meeting. The township supervisors then said they would consider the petition. They did not do so. They said they would consider it if they did not see it. I expect the township has to use some money before the end of this year and that is why they are starting our road.

Here is a December and the road project has begun against the majority of residents who would not want it. We have had difficult calls that have been made for 30 or more years. If we only knew what we were still finding them, we would have given them the money they were still finding them. We would have given them the money they were still finding them. We would have given them the money they were still finding them.

We no longer can take peaceful walks along a country road that would have us worry about other children walking to a bus stop along a road with a 55 mph speed limit. We were told the road would be widened and the speed would be 55 mph. When we asked about speed bumps or reduced speed limit, we were told this would not be done.

I have been told by other township residents that there is a five year plan for road paving and once the money is allocated for them they will have it. I am not sure if the project is not done. So we are asking the township what they will pay, also the money and just before they plan to do the project they tell the residents, but it is too bad if they are against it because they don't want to lose the money. Why didn't they tell us this a township meeting? Why didn't they tell us this a township meeting? Why didn't they tell us this a township meeting?

One last note of road paving to be mentioned is taxes. I have heard that the paving will also raise taxes. I am not sure if this is true. This is just what we need. I am not sure if this is true. This is just what we need. I am not sure if this is true. This is just what we need.

Our difficulties are gone, our money is gone but we are still fighting the paving which we have heard will come in the spring. Don't wait until this happens to you. Stand up and fight for your rights. You will have to go back because you will not be told until it is too late to keep the country atmosphere and safety of your home.

To The Editor,

The United States is being stampeded into a war. War is wrong. The Secretary of State is trying to scare the people by telling them that they will lose their jobs unless we go to war. We have this old American industry. Why don't we develop American oil or we are waiting till we give the United Nations something to do. Since world organizations have taken effect, peaceful action against aggression, the United States should not undermine it by further aggression. It is important that all people write to their Congressmen and demand action by the Congress to stop this illegal intervention.

Francis Worley

Have a Safe and Happy Holiday.
